InformationLeader Forays into New Industries

Theta Technologies is recognized for its Award Winning software InformationLeader – a leading web-based software solution for managing information and reporting on compliance and quality assurance processes.

Traditionally InformationLeader has been used as the preferred compliance and quality assurance process software in the food processing industry.

The flexibility offered by InformationLeader allows its use in a wide range of scenarios as confirmed by its increasingly rapid acceptance and use in other regulated industries such as:

- Analytical Services;
- Migration Services; and
- Government Compliance & Investigations.

Satisfied clients realizing the versatility and potentials offered by InformationLeader are keen to integrate the application in more areas of their organizations. The team at Theta constantly assists existing clients to review new areas of implementation for the application. InformationLeader is now increasingly being used for:

- Occupational Health and Safety Processes
- Human Resources;
- Managing Customer Complaints;
- Analysis Certificates; and
- Remote Data Management.

About Theta: Theta Technologies Pty Ltd was established in 1995 as an e-business consultancy and implementation firm, and has extensive experience in food industry auditing, quality assurance and infrastructure. Through strategic partnership and by combining industry knowledge with cutting-edge technical expertise, Theta Technologies offers a range of solutions that are now meeting the needs of organisations in all sectors. Theta's products are based on industry feedback and continuous improvement, ensuring its applications and services are designed to meet clients' evolving needs. Theta delivers integrated web-based solutions, such as the award-winning InformationLeader, built around fully customisable data capture systems that replace traditional paper-based processes. The company's success is founded on a commitment to world-class software solutions for Quality Assurance, Compliance, Information Management, and Corporate Governance.
