For Immediate Release

17 October, 2005

Theta Extends Its Lead

Theta Technologies announces InformationLeader Version 4, the latest release of its award winning software.

InformationLeader is designed for managing Information, Compliance and Quality Assurance processes in highly regulated industries such as food production, medical, and pharmaceutical manufacture.

Robert Cremona, Theta's R&D Manager says that "Version 4 of InformationLeader is the natural progression of a maturing solution".

The fourth major release of InformationLeader "is an evolutionary process that incorporates time saving enhancements and value-adding functionality derived from real world experience and invaluable customer feedback." he said. "Our goal here at Theta is to ensure that everyone gets the most out of the product."

Theta has taken a 'whole of business approach' with emphasis on making standard business operations easier and quicker. InformationLeader Version 4 is designed to extend its foundation in Compliance and Quality Assurance to applications in Human Relations, Occupational Health and Safety, and Information Management in general.
